YOU HAVE INVESTED IN YOUR BUSINESS - WE WOULD LIKE TO INVEST £1200 IN YOU.

Managing directors, owner managers and company directors in the South East, with at least 10 employees, can develop their business leadership skills while saving up to 60% of training costs - through a new Business Leaders programme launched by Train to Gain, a service funded by the Learning and Skills Council.

Independent and impartial advice – at no cost or obligation

A qualified and experienced Train to Gain Skills Broker can provide you with an impartial skills needs assessment – at no cost, and with no obligation from you. This will help you identify flexible, tailored learning solutions to suit your personal and business needs, and the time you have available. And, best of all, we can fund up to 60% of the learning programme up to a maximum contribution of £1,200.

This money could be put towards one or a combination of sources to aid you and your business, for example:

- Attendance on courses or workshops run by an accredited training provider
- Videos, DVDs, books or CDs
- Mentoring/coaching – where the mentor/coach has the appropriate accreditation or membership of a professional association
- New personal membership of Institutes or Associations
- Bespoke development activity for you and your management team.
