

Welcome to the IPSO FACTO AgilePM® course

Pre-course Preparation

Quick reference guide

Take a look at the quick reference guide “download” which will highlight the main components of the approach and introduce you to some of the terminology.

Questions to answer

Answer the five questions below, these will be used for discussion on the course. You may need to do some research into what is already being used in your organisation.

1. Which agile development methods are currently used in your organisation?
or
List those that you are familiar with.
2. Are daily stand-ups used? If so, what is being discussed? Who facilitates them? How long do they take?
3. How are changes to the project managed? Do you have a formal change control procedure? What type of change is the development team able to authorise without escalation to the project manager?
4. Are you familiar with User Stories as a way of capturing requirements? If so, please come to the course with a couple of them written out.
5. Do you have any concerns with using AgilePM® in your organisation? Please list them.
